GUARDIAN CARE COVERED PARTS

The following parts are covered:

Heating Systems

- Air scoops
- Aquastat
- Auto water fill valve (hydronic systems)
- Back flow preventor
- Barometric damper
- Blower motor assembly
- Burners (if available)
- Circulator - (all components up to 3 zones)
- Condensate pump and drain line
- Draft diverter
- Draft inducers (internal)
- Drain off valves
- Electronic ignition (pilot/primary control/sensor/wiring)
- Expansion tank draining
- Expansion tank
- Fan-assisted motor and assembly (internal)
- Fan controls/fan center
- Flame sensor switch
- Flow check valve
- Flue baffle (if available)
- Flue pipe/vent connector (single wall galvanized/PVC)
- Fuses (excluding circuit breakers)
- Gas cock
- Gas pressure regulator
- Gas valves
- Gauge glass and packings
- Limit controls (pressuretrol)
- Low water cut off (excluding integral water feed)
- Operating relays (fan)
- Pigtail to pressure gauge
- Pilot (standing) and safety assembly
- Pilot tubing
- Power pile generator
- Pressure gauges
- Purge/bleed air bound system
- Purge & balancing valves
- Relays - aquastat/circulator
- Relief valve (15 & 30 lb. pop)
- Switches:
  - o Emergency
  - o Firomatic
  - o Low water cut-off
  - o Pilot
  - o Pressure: air/gas/steam
  - o Roll-out
- Thermocouple
- Thermopile
- Thermostat (standard/regular)
- Transformer
- Vent valves (at boiler)
- Vent Dampers
- Zone valves - hydronic systems (up to 3 / additional zones extra)

Central Cooling

- Bearings/shafts
- Belts & pulleys
- Blower motor assembly
- Capacitors
- Circuit boards
- Condensate pumps
- Condenser motor/fans
- Contactor switches
- Delay timers
- Dryer filters
- Fan assisted motor & assembly (internal)
- Fan controls
- Fan relays
- Fuses (internal)
- Hard start kits
- High & Low pressure switches
- Limit controls
- Motor contactors
- Recharging (refrigerant extra)
- Safety limits (all)
- Schrader valves
- Service port valve caps
- Sight glasses
- Thermostat (standard)
- Transformers

Water Heaters

- Burner (if available)
- Circulator pump
- Draft inducer
- Electronic gas valve (internal)
- Flame sensor
- Flue pipe (single wall galvanized/PVC)
- Ignition control
- Pilot burner
- Pressure switches
- Temperature and pressure relief valve
- Temperature control (if available)
- Thermocouple
- Vacuum relief valve
- Wiring on heater

Gas Lines

- 1/2 to 1-1/4 in. gas pipe
- Flexible connectors
- In-line valves
