

Energy Efficiency

Programs & Services from Columbia Gas of Massachusetts for Multi-Family Properties

Columbia Gas is committed to providing multi-family building owners, property managers, and customers with technical and financial assistance to reduce natural gas consumption and related energy costs. Our Energy Efficiency Programs offer customers a streamlined, step-by-step process for identifying energy-saving opportunities and installing energy efficiency upgrades that can save you energy and money, help the environment, and keep your residents comfortable all year long.

**Columbia Gas of Massachusetts — Working with you
to bring energy savings to your property.**

The Columbia Gas Energy Efficiency Programs for multi-family properties make energy efficiency easy and improve your bottom line.

> HERE'S HOW:

- Columbia Gas of Massachusetts offers an energy evaluation of your building — at no charge to you
- A no-obligation written report identifies your energy savings potential and the projected financial benefits to your multi-family building
- Columbia Gas pays up to \$50,000 towards qualified improvements
- You save energy and money!

> HOW DO I PARTICIPATE IN THE COLUMBIA GAS ENERGY EFFICIENCY PROGRAM?

Multi-family buildings with five or more units using natural gas for space and/or water heating are eligible to participate in the program.

First, Columbia Gas offers — at no cost to you — an evaluation of your existing or planned multi-family building to identify potential energy-saving opportunities. The evaluation examines existing and/or potential natural gas equipment and technologies, including:

- Space heating equipment and systems
- Building shell improvements
- Water heating equipment and systems
- Temperature and building controls
- Ventilation equipment and systems
- Other site-specific technology needs
- In-unit energy savings measures

Following the evaluation, we provide a no-obligation written report highlighting recommended energy efficiency improvements and projected financial benefits.

> DOES COLUMBIA GAS PROVIDE FINANCIAL ASSISTANCE TO HELP ME MAKE THESE IMPROVEMENTS?

Yes. Columbia Gas shares a portion of the cost to purchase and install qualified energy efficiency upgrades. Columbia Gas pays up to 50% of the qualified installed cost, up to a maximum of \$50,000.

> HOW DO I LEARN ABOUT ENERGY EFFICIENCY PROGRAMS FROM COLUMBIA GAS?

Just call 800-232-0120 to speak with a Columbia Gas energy efficiency representative. They will assist you in your needs, including program enrollment, high-efficiency equipment selection, and fuel use analysis. Whatever your needs, Columbia Gas is your partner in achieving valuable energy savings for your property.
