

Energy Efficiency

Programs & Services from Columbia Gas of Massachusetts
for Small Businesses and Municipalities

Columbia Gas is committed to providing small business and municipal customers with technical and financial assistance to reduce natural gas consumption and related energy costs. Our Energy Efficiency Programs offer customers a streamlined, step-by-step process for identifying energy-saving opportunities and installing energy efficiency upgrades that can save you energy and money, and help the environment.

**Columbia Gas of Massachusetts — Working with you
to bring energy savings to your business.**

The Columbia Gas Energy Efficiency Programs for small businesses and municipalities make energy efficiency easy and improve your bottom line.

> HERE'S HOW:

- Columbia Gas of Massachusetts offers an energy evaluation — at no charge to you
- A no-obligation written report identifies your energy savings potential and the projected financial benefits to your business
- Columbia Gas pays up to \$50,000 towards qualified improvements
- You save energy and money!

> ENERGY EFFICIENCY PROGRAMS OVERVIEW

All firm, commercial gas customers whose annual use is less than 40,000 therms are eligible to participate in the Small Commercial & Industrial program.* Columbia Gas offers — at no cost to you — a walk-through evaluation of your existing or planned facility to identify potential energy-saving opportunities. The evaluation examines existing and/or potential natural gas equipment and technologies, including:

- Space heating equipment and systems
- Heat recovery equipment and systems
- Water heating equipment and systems
- Ventilation equipment and systems
- Gas-fired process and manufacturing equipment
- Building shell improvements
- Temperature and process controls
- Other site-specific technology needs

Following the evaluation, you receive a no-obligation written report highlighting recommended energy efficiency improvements and projected financial benefits.

> DOES COLUMBIA GAS PROVIDE FINANCIAL ASSISTANCE TO HELP ME MAKE THESE IMPROVEMENTS?

Yes. Columbia Gas shares a portion of the cost to design, purchase and install qualified energy efficiency upgrades. Columbia Gas pays 50% of the qualified installed cost, up to a maximum of \$50,000 per master meter.

> HOW DO I LEARN MORE ABOUT THE ENERGY EFFICIENCY PROGRAMS OR OTHER COLUMBIA GAS SERVICES?

Just call 800-232-0120 to speak with a Columbia Gas energy efficiency representative. They will assist you with your energy efficiency needs, including program enrollment, high-efficiency equipment selection, and fuel use analysis. Whatever your needs, Columbia Gas is your partner in achieving valuable energy savings for your business.

NOTE: Programs' terms subject to change without notice.
*For customers using greater than 40,000 therms, please refer to the Large Commercial & Industrial program.
