

**Columbia Gas of Massachusetts**  
**55 Marston St.**  
**Lawrence, MA 01841**

We would be happy to investigate making natural gas service available from our gas main to the proposed site, and ask that you provide the following information:

- Locus plan
- One copy of a full-sized approved utility site plan that reflects the project's location including cross streets.
- Site plan showing location gas meter locations.
- Elevation plan showing gas meter locations.
- Average square footage of the new homes.
- Gas service line length estimate or set-back estimates
- List equipment intended to be fueled by natural gas:
  - Heat, Hot water, Range, Dryer, Fireplace
- Approximate natural gas load requirements per home.
- Location of pump houses and natural gas requirements (delivery pressure).
- Lot number and corresponding street address for new services if available.
- Timeline for construction
- Phasing of construction.
- Indicate number of homes / year to be constructed.
- Property owner name, address, phone number and email address if available.
- Contact name, address, phone number and email address if available.

When we receive this information, we'll determine the availability of service including our capacity to meet your load requirements from the nearest system.

Columbia Gas will initiate the cost benefit analysis for this project upon receipt of the information above. We look forward to working with you. Thank you for your interest in doing business with Columbia Gas.

Sincerely,

Columbia Gas
